

## Popular TX714A Large Alpha® Swab Alpha Series

### Description

The Large Alpha® Swab is a polyester swab for cleaning broad surfaces and flat areas. Its laundered, knitted Alpha® polyester head is extremely clean. A long, rigid handle and large internal head paddle provide firm support. The Alpha® Swab is widely recommended for surface sampling and cleaning-validation work. Its cleanliness levels provide a neutral background for the sample obtained. This swab is an ideal choice for controlled cleaning and sampling of large areas.

### Features

- Cleanroom-laundered, double-layer knitted AlphaLite® polyester tip over full-sized, rigid paddle
- Long, light green polypropylene handle
- Thermally bonded head
- Soft and nonabrasive
- Excellent chemical resistance

### Benefits

- Ultralow nonvolatile residue
- Low particle and fiber generation
- Good sorbency
- No contaminating adhesives
- Compatible with many cleaning and sampling solvents
- May be sterilized by autoclave

### Applications

- Cleaning with solvents such as IPA
- Sampling surfaces for TOC or cleaning validation
- Applying lubricants and other liquids
- Removing excess materials
