

Sticky mats

Capture particulates before entering the cleanroom.

CleanStep™ is the preferred choice in adhesive mats and frames for cleanrooms and critical areas. Constructed from the highest grade polyethylene (mats) and polystyrene (frames), this contamination control system grabs and retains particulates from foot- and wheel-borne contaminants.

Adhesive Mats:

Each removable, adhesive-coated polyethylene sheet traps particles and prevents transfer. CleanStep™ mats feature an antimicrobial agent to prevent bacterial growth and numbered tabs to simplify inventory and replacement. CleanStep™ mats come in 5 sizes, 3 colors, and 30 or 60 layer options.

Frames:

These light-weight, non-skid polystyrene frames adhere to the floor without adhesive and stay in place utilizing a high-grade non-skid backing. Easy to move for applications needing portability. Frames fit 18" x 36", 25" x 45" and 36" x 46" mat sizes. Available in black or white color choices.

1 Choose your **SIZE**

18" x 36"	18" x 46"	24" x 36"
25" x 45"	36" x 46"	

2 Choose your mat **COLOR**

Blue, Gray, White

3 Choose **LAYER** count

30 or 60

4 Choose your **FRAME** (optional)

Black or White

Ideal for Industries/Applications:

- Aerospace
- Aviation
- Biologics
- Cleanroom Build
- Cleanrooms
- Compounding Pharmacies
- Food Processing
- Laboratory
- Maintenance
- Medical Device
- Microelectronics
- Pharmaceutical
- Printshop Areas
- Photo Studios
- USP<797> Compliance
